Currently, CICS Criminal Justice region (CICSCJ) and ADABAS CJ are running on CPU2. ITS is planning to move this region (CICSCJ) and the ADABAS CJ environment to CPU3 on December 15, 2002. Users will not be required to make any changes in the way they access CICSCJ and ADABAS CJ applications. Also, there won't be any need to change JCL job classes, because the same classes used to run batch on CPU2 will be reused to run jobs on CPU3 starting December 15, 2002 (classes C, S and V). The attachment explains the future Job Class Assignments at the State of Utah.
